

**THE THREE MINCE PIES
ON TEST AND THEN DIED**

Man Who Showed Gastronomic
Prowess in Restaurant Soon
Victim of Acute Indigestion.

Abraham Jakowski, forty-three
years, of No. 117 Seigel Street, Brook-
lyn, met a man in the restaurant at
No. 127 Varet Street last night and the
two had an argument as to which

could eat the more.
Pies were chosen as the instru-
ments for the test, and each contest-
ant got three of the best mince pies
in the place. Things went along
evenly until each man had disposed
of two pies. Then the stranger said
to Jakowski: "I guess you win, for
I'm through."
"I'm good for one more, and maybe
two," said Jakowski. He ate the
third pie, but then complained of
feeling ill. Leaving the fourth pie he
went to see Dr. Miesel at No. 89
Varet Street. He fell dead as he told
his symptoms. An ambulance sur-
geon from St. Catherine's Hospital
said acute indigestion had killed him.

WATERS' PIANOS

ESTABLISHED 70 YEARS

The tone of the Waters Piano has a wonderfully
pleasing quality; the bass is deep and full, the treble
is clear and brilliant and the middle register has a
sustained vibration that gives it a fine singing quality.

Waters prices, for upright and grand pianos,
range from \$250 to \$650, and easy terms of payment
are offered with no charge for interest.

The Waters-Autola player-pianos have the same
sweet tone as the Waters Pianos, and the new Artist's
model Autola, by reason of important and exclusive
features, is a long way in advance of most of the
best known piano-players.

Call and let us make good all our claims for the
Waters Pianos and Waters-Autola player-pianos or
send postal for catalogue.

NEW SPRING HATS UPSET FASHION DECREE**SPRING HAT FASHIONS
UPSET BY WOMEN, WHO
FAVOR LITTLE TOQUES**

Thin, Broad-Brimmed Affairs
Discarded for More Be-
coming Style.

Woman will submit to many things
for the sake of Fashion, but she has
indeed been very cautious this year
in regard to her hats. Modistes were
away wrong in their ideas if they
supposed for one minute that Madame
would wear one of those thin, broad
brimmed hats which she herself could
see, with the aid of a truthful mirror,
added noticeably to her years. It was
a little too much of Dame Fashion to
ask that a close coiffure be topped

with a broad brimmed hat! She might
at least be consistent, and so, thus
arguing, Madame clings to her little
toque hat with an ardor well de-
served.

The only difference in the small
hats of this spring is that the crowns
are made to fit the head as closely
as the new coiffure has demanded.
Another difference, which as yet has
not been generally accepted, is in the
tilt of the hat. There were a few
conservative women who never did
accept the sideways tilt, and now
comes the absolutely level pose of the
hat to satisfy them. And quaint as
this may sound, it is very chic in-
deed, and it wears well with the new-
est coiffure—that of tying the hair in
a knot at the nape of the neck.

A pleasing example of this mode
of wearing the hat is shown on the
centre model of the above group.
Though the tilt is demure, the trim-
ming makes up for it and sports two
dashing quills, which are laid flat on
the top of the crown and crossed. At
the base of the crown a band of
narrow gros-grain ribbon passing
through a bone buckle at the side
somewhat allays the severe plainness.
That feminization of the soldier's
headgear is possible, the helmet
model at the left will prove. Of Bel-
gian blue, hand-sewed yetta straw,
it is trimmed with green grapes at

the sides and a swirling feather of
changeable blue and green at the
back.

Reminiscent of the postillion head-
gear in the model at the right, of
leghorn straw, it is a shape that will
be found almost universally becoming
and the trimming arrangement
indeed smart.

**JAPANESE HUNTERS
HALTED ON ISTHMUS**

United States Scouts Are Scattered
Where Outsiders Might Go to
Study Canal Approaches.

PANAMA, Feb. 15. — Two Japanese
who were trespassing, in spite of signs
prohibiting it, upon the area of the
field fortifications around the City of
Panama, were stopped on Thursday by
the authorities. The Japanese said
they were hunting.

Brig. Gen. Clarence Edwards, in com-
mand of the United States troops on the
Isthmus, has reconnoitering parties
all over those parts that might be
visited if any military power was study-
ing the canal approaches.

Mr. Iachida is here negotiating with
the canal authorities for 'cooling facili-
ties and passage through the canal for
a line of Japanese steamships. It is
believed here that these ships have ar-
ranged to carry copper from the Cerro
de Pasco mines to New York.
